The screenshot shows the 'Watch Wizard' window in the Customer Monitor application, specifically the 'Conditions for "synology"' step. The window has a title bar with standard Windows controls. The main area contains a list of six conditions for monitoring a Synology device. Below the list are buttons for 'Add Condition', 'Edit Condition', and 'Delete Condition'. At the bottom, there are options to configure the watch state (OK/FAIL), a delay for the FAIL state (set to 7 minutes), and checkboxes for advanced options like notifying on UNKNOWN state and longer evaluation periods. A note at the bottom states that watches are active from 5 minutes after OS start. Navigation buttons '< Back', 'Next >', 'Skip Actions >>', and 'Cancel' are at the bottom right.

Condition ID	Condition Description
1	Successful CHAT SYNOLOGY Health v 1.2 Check every 2min Each value will be sent to CM Server
2	CHAT Var. "Model" (Synology Model) <> . Check on each watch state evaluation Each value will be sent to CM Server
3	CHAT Vect.Var. "DiskStatus[]" (HDDStatus) = Normal Check on each watch state evaluation Each value will be sent to CM Server
4	CHAT Vect.NumVar. "Temperature[]" (HDDTemperature) < 43C Check on each watch state evaluation Value will be sent to CM Server only if change to last sent value is more than 2
5	CHAT Vect.NumVar. "FreeSpace[]" (StorageFree) > 20GB Check on each watch state evaluation Value will be sent to CM Server only if change to last sent value is more than 5
6	CHAT Vect.Var. "RaidStatus[]" (RStatus) = Normal Check on each watch state evaluation Each value will be sent to CM Server

Buttons: Add Condition, Edit Condition, Delete Condition

State of watch is **OK** if all conditions are true **FAIL** - if at least one condition is false

☒ Delay for FAIL state. Conditions for FAIL state must be met at least 7 Min

Hide Advanced Options

☒ If state of the watch is UNKNOWN, notify this by options in actions

☐ Evaluate watch state with longer period than 30s (specified by C-Monitor license)

Note: Watches are active from 5 min after the operating system start

Buttons: < Back, Next >, Skip Actions >>, Cancel
